

Milk Production Competitions Recording Year 2015-2016

Following announcing the Milk Production Competition results at the AGM, we were made aware of a possible issue with the results of the Rayland's Trophy. Upon investigation, it became clear that there was an error in the criteria being used by the computer program to select the animals for this competition. This has now been corrected and the results for the Rayland's Trophy have been revised using the correct criteria. This was the only trophy effected and all other results are as previously announced.

Top ten places listed in each class, all animals from an ICAR approved recording system, automatic entry for all classes except the Barnowl trophy and the Secretary's trophy.

Beauty's Trophy

Highest lifetime kilograms of butterfat from a cow passing 50,000kgs of milk in the recording year.
