Joint auctioneers:

Foreword

Kivells & Richard Turner & Son are delighted to be favoured with the instructions to disperse the Heathwaite herd of 120 Pedigree, Pure & Crossbred Jerseys on behalf of Mr JA Jenkinson of Fordsyke Farm, Carlisle which is being removed to Bentham Mart for convenience of Sale on Wednesday 25th September.

The Heathwaite prefix was first registered by my grandparents in the 1950's in the hills of the Lake District. Upon their retirement the cows moved to my parent's farm in Garstang and then moved to Fordsyke Farm, Carlisle in the 90's allowing space to expand. The cows are on a low input, low output system, grazing from late march to early November. Clamp silage in the winter, **Cubicle housed**, cake fed in the herringbone parlour. Average milk yields are 4,500kg with 5.5% fats and 4% protein & cc100.

Early nineties breeding was very much Danish bloodlines with several bulls being purchased from the Thompson family – Farlam Jerseys. This gave us the base for excellent butterfats and proteins which have continued through the herd to this day, even into the crossbred breeding. From 2010 the herd has used American bulls through the World Wide Sires Breeding Programme which has made a massive impact on the herd. Bulls originally used were, Valentino's, Allstar, Success and Irwin moving onto Victorious, Stearns, Domingo and Chrome in the most recent years. We bought a stock bull from the Dickinson Family who was an Engineer Son – Thurlstone Spannerman. Longevity, excellent feet, good fats and proteins with low cell counts are the results of this breeding programme.

Originally, we started crossing with British Friesians bulls – Dunum Image but latterly moved onto using Holsteins bulls to cross with creating a larger, more desirable cow for the market. Our first Holstein was Jenny Lou Shottle Trump, moving onto Sandy Valley Pharo and being used for serving cows now No Fla Capital. A Swedish Red Cross stock bull has been used on the herd in the last 18months.

In 2005 a heifer calf was purchased for Katherine from the Farlam herd and the Katherines Prefix was formed, her first heifer calf was born in 2007 and this cow is still with us today in retirement at 17years old. Gloria went on to have 11 more heifer calves which some of the bloodlines are included in the sale. Some of these heifers and their families have had many successes in the show ring and is a credit to her dedication to the breed.

In the last four years as a family, we started selling Jersey milk from the farm through a vending machine, Katherine has entered this milk into competitions over the last three years at the Great Yorkshire Show, Royal Highland Show and the Great Taste Awards. The Milk won Champion Milk in 2022 and 2024 at the Great Yorkshire, Silver at the Royal Highland Show 2024 and was awarded 2 stars in the 2023 Great Taste Awards, being complimented on the creaminess and smoothness of the milk. The quality is certainly there.

The family would like to wish all buyers good luck with their purchases and they will be sadly missed here at Fordsyke.

Herd Health

The herd is monitored low for Lepto, BVD & IBR and the herd is BVD tested negative. The herd receives NO Vaccinations and TB4 area with the last annual in July 2022.
